AQUONIX

CUSTOM FISH FOOD - PRIVATE LABEL - BULK SUPPLY

Your fish.
Your formula.
Your brand.

Custom nutrition, ingredient direction, packaging and commercial supply planning for US-focused farms, distributors, retailers and growing aquatic brands.

MADE IN SRI LANKA. BUILT FOR YOUR US BUSINESS.

Capability overview - project requirements confirmed after technical review

WHAT AQUONIX CAN BUILD

One commercial partner.
From feed brief to packed product.

01

Custom aquaculture feed

Species, life stage, target protein, fat and fibre, pellet size, floating or sinking behavior, preferred ingredients and exclusions.

02

Private-label fish food

A branded product or coordinated range for aquatic stores, distributors, online sellers and specialist fish businesses.

03

Bulk commercial supply

Commercial sack, pallet and container planning for farms and distributors, with Northeast US freight direction.

04

Packaging and labeling

Pouches, sachets, jars and commercial sacks using applied-label, customer-supplied or fully printed routes.

GUIDED FEED STUDIO

Model species, nutrition, ingredients, packaging, order volume and New York gateway freight in one guided brief. Online results are preliminary and keep the exact formula private.

A PRACTICAL DEVELOPMENT PATH

Start thoughtfully.
Scale when the evidence supports it.

01	**DISCOVER**	Species, market, nutrition, pellet behavior, ingredients, pack and target volume.
02	**REVIEW**	Formulation feasibility, sourcing, sample route, label information and quotation.
03	**EVALUATE**	Agree what the sample or proposed 2,205 lb commercial trial needs to prove.
04	**SCALE**	Move toward repeat 3-5 US ton orders and larger programs as demand supports them.

WHAT THE WEBSITE ESTIMATE MEANS

The live estimate is a commercial planning direction. Final specifications, guaranteed analysis, supplier rates, packaging, lead time, freight, duties and import responsibilities are confirmed in writing before production.

START A DECISION-READY CONVERSATION

You do not need every answer.
Give us the commercial context.

- + Fish species and life stage
- + Floating or sinking preference
- + Target guaranteed analysis or current feed
- + Ingredients to include or avoid
- + Expected first and repeat order volume
- + Retail, distributor or farm packaging
- + US destination, state or nearest port
- + Target timing and commercial priorities

NEW YORK GATEWAY PLANNING STANDARDS

LCL	20 FT FCL	40 FT FCL
$1,600 / pallet	$8,000 / 10 pallets	$14,000 / 20 pallets

Working CIF assumptions for NY, NJ, CT and PA. Other states, duties, taxes, customs services and inland delivery require project-specific confirmation.
